INFLATION QUO VADIS

Whether or not Federal Reserve policy implies acceleration in future inflation has very important consequences for monetary policies to come, and for the valuation of financial assets, says John R. Gilbert of GR-NEAM in this review of a highly complex subject.

page 2

RIDERS ON THE STORM: CFOs AND THE CREDIT CRISIS

The systemic recalibration of attitudes towards credit and risk that is underway is likely to lay the groundwork for a durable economic recovery, says a confident Bernard Winograd of Prudential Financial Inc.

page 7

THE CURRENT CONDITION OF INSURERS AND ASSET MANAGERS

According to Moody's, the crucial post-crisis challenge will be the transition to a world of more restrictive operating guidelines imposed both by market forces and regulatory oversight.

page 10

EQUITY TRADING IN TRANSITION

Institutional brokerage is migrating from a paradigm in which a few major players control the action to one in which smaller players will assert greater influence, triggering better competition and improved service, argues TABB Group.
